

# Adult\_Positive\_GO\_BP

nephron  
involved cell tubule morphogenesis positive metanephros  
**development regulation metanephric**

endopeptidase cysteine type activity ubiquitin dependent  
**process catabolic regulation** cellular negative involved

formation cochlea organ animal  
**morphogenesis eye embryonic development cameratype**

determination mesodermal transcription regulation  
**fate cell commitment specification neuron involved**

morphogenesis cranial structural organization  
**nerve optic vestibulocochlear formation development**

phagocytosis engulfment  
**regulation positive degranulation mast cell leukocyte exocytosis**
