

PND15_Adult-intronic_bg_all_GO_MF

transferase hydrolase receptor

activity

kinase phosphatase oxidoreductase ligase dehydrogenase acting

binding

receptor kinase domain activity dna gtpase transcription complex ma

voltagegated ion sodium cation potassium calcium

activity

channel transporter transmembrane

ribonucleoside

binding

sulfate ribonucleotide purine nucleotide ion nucleoside adenyl metal

kinase activator enzyme receptor

activity

regulator inhibitor channel guanylnucleotide exchange

beta gaba proteincoupled

activity receptor

hormone signaling growth mediator cytoplasmic

Similarity
