

# PND15\_Adult-exonic\_bg\_all\_GO\_MF

motor  
activity kinase ligase oxidase dehydrogenase acting hydrolase acid transferase

ligandgated calcium voltagegated cation  
activity channel transporter ion transmembrane inorganic

nucleoside  
binding purine ribonucleotide ribonucleoside nucleotide acid compound adenylyl

binding receptor complement light intermediate dynein chain

interleukin signaling glutamate proteincoupled  
receptor activity nucleotide alphaadrenergic purinergic

binding myosin alphaactinin microtubule actin
